**IMPORTANT NOTE**

The 2019 season is broken up into two phases (Regular Season & Post Season). Your \$200.00 Registration Fee will cover all meets in the Regular Season. It does not cover meets in the Post Season. Post Season meets are optional. Those meets are designed to qualify and prepare athletes for national level competition. The Coaching Staff will manage all registrations that are included on our schedule. If you choose to run in a track meet not included on our schedule, you

**will be responsible for the registration. No Post Season meet registration will be completed until all required fees are paid in full for the respective meet.**

***“Optional Meets”* give each athlete a fair opportunity to advance to a National Junior Olympic Track Meet. Some meets are highly competitive meets designed for athletes who are competing at or near USATF National Standards. We do not expect your athlete to run in every listed track meet on our schedule. The schedule is designed to give the athlete enough competitive work while giving the Coaching Staff the necessary flexibility to better train needed skill sets.**

**It is encouraged that your athlete participate in most of the Regular Season track meets. Running your child in additional non-scheduled track meets is strongly discouraged. Over racing is a huge detractor from any high level training program. It causes fatigue which is not factored into your child’s training schedule.**

**We are very excited about the 2019 Track and Field season. We thank you for your support and look forward to seeing you at the track!**
